

ARE YOUR WORKERS PROTECTED?

Important Safety Regulations for Buildings with Workers Present

(per Occupational Health and Safety Regulations, 1996, Part XXIII, O-1.1 Reg1)

1
STEP

ASBESTOS IDENTIFICATION

✓ Site Assessment

✓ Lab Sample Testing

✓ Asbestos Inventory Documentation

✓ Site Labelling

2
STEP

ASBESTOS MANAGEMENT

✓ Asbestos Management Plans

✓ Employee Awareness Training

✓ Annual Maintenance Inspections

✓ Containment & Abatement Services

CHECK BEFORE YOU WRECK!

Employees must be aware of asbestos locations before performing alterations or maintenance to avoid accidental exposure.

WE CAN HELP

We are an experienced full service High Risk Management Company equipped to handle every step in the process, taking the burden off your staff to navigate and manage these important workplace safety regulations.
